Synergy Is Not Closed For Any Mid-Winter Breaks

With every school district having different breaks in February we've decided not to close at all for any mid-winter breaks in February. We do understand that this is a great time for families to get away together so if you are heading for warmer weather enjoy yourself and your family time together, try and let your teachers know if you won't be in class and bring back some sunshine for us!!!!

A Note From The Niche

Costumes will be coming in soon and our goal at Synergy is to make sure every dancer has the best fit possible and is comfortable with their costumes. The Dancers Niche, our own in studio dance store, is offering alteration services starting at \$10.00. Even though we take your dancers measurements costumes are generic sizes. If you need a little nip and tuck and would like some help with that, please see Loretta at the Niche during regular store hours to make your appointment.

Synergy Student—Olivia Stoops!!

Not only do we have talented dancers here at Synergy, these same dancers have amazing additional talents. Olivia Stoops is an 8th grader at Divine Child In Dearborn. She participates in an after school program called MathCounts. MathCounts is a program where middle school students are introduced to High School and College level math like Algebra, Trig, Geometry and Calculus. In January they have the Button Event, the top three schools then move on to the Chapter Even in February. Olivia's team had the honor of placing second at the Button Event and will be advancing to the next level in February. We are so very proud to have Olivia dancing at Synergy. She is currently prepping for her Grade II Cecchetti exam and you can also find her in the advanced Jazz on Monday and Competition Tap on Thursday.... Way to go Olivia!!!
